ON THE COVER

"Our greatest strength lies in our ability to unite people of all cultures and generations through a shared commitment to doing good."

Larry A. Lunsford
RI President 2027-28

Shahzad Sabir
District Governor

Dear Rotary Leaders and Fellow Members,

Every new month gives us another opportunity to pause, reflect, and turn our commitment to service into meaningful action. As we step into September, I am deeply encouraged by the dedication and spirit with which our clubs continue to serve and make a difference in the lives of others.

September is Basic Education and Literacy Month, a reminder that education is one of the greatest gifts we can give to a child and one of the most powerful ways to transform a community. The ability to read, learn, and access quality education opens doors to confidence, opportunity, and a brighter future.

I encourage each of our clubs to embrace this month by supporting initiatives that strengthen education and literacy in our communities. Whether it is helping a child access learning resources, supporting teachers, promoting reading, or creating opportunities for those who are underserved, every effort matters. Sometimes, a small act of support can become the beginning of a lifetime of possibilities.

Let us also continue to engage our Rotaractors and young leaders in this important work. Their ideas, energy, and passion can help us reach young people in new and meaningful ways. Together, we can build partnerships and projects that leave a lasting mark.

As we continue under Rotary International President Olayinka Hakeem Babalola's inspiring theme, "Create Lasting Impact," let us remember that few things create a more lasting impact than education. When we help someone learn today, we help shape a better tomorrow.

May this September inspire us to serve with greater purpose, reach those who need us most, and give more children the opportunity to learn, dream, and thrive.

Thank you for your continued dedication, fellowship, and service. Let us continue to move forward together and Create Lasting Impact.

With warm regards and best wishes,

Shahzad Sabir
District Governor (2026-27)

Visit to Rotary Smart Village | Mirpurkhas

RI President Elect Larry Lunsford visited the Rotary Smart Village alongside District Governor Shahzad Sabir, RI Director 2022-2024 Muhammad Faiz Kidwai, Trustee 2020-24 The Rotary Foundation Aziz Memon, DGE Fahad Sikandar, DGN Abdul Jabbar Sheikh, and fellow Rotary leaders — witnessing firsthand a remarkable model of sustainable community development. The delegation interacted with local artisans producing traditional clay pottery, explored the E-Learning Centre providing digital education for children and youth,

and visited the Skills Development Centre where women receive vocational training in stitching, tailoring, and fashion design for financial independence. They also observed the community healthcare facility offering free primary healthcare, clean drinking

water, and improved sanitation. RI President Lunsford praised the Rotary Smart Village as an exceptional example of Rotary's Seven Areas of Focus successfully implemented within a single community — a true model of Service Above Self.

Visit to Karabai Karimjee School | Lyari, Karachi

One of the most memorable moments of RI President-Elect Larry Lunsford's visit to Pakistan unfolded in the heart of Lyari. At the invitation of RC Karachi Sunset Millennium President Dr. Kausar Malik, RI President-Elect Larry Lunsford and District Governor Shahzad Sabir, joined by RI Trustee Aziz Memon, DGE Fahad Sikandar, DGN Abdul Jabbar Sheikh, and key Rotary leaders, visited Karabai Karimjee School on 27th July 2026.

The delegation toured non-formal learning through the Takmil Accelerated Learning Program, a fully equipped IT and vocational training hub, newly refurbished facilities, a joint medical clinic and immunization centre operated in partnership with Greenstar and local health departments. RC Karachi Sunset Millennium has also installed water chillers for clean drinking water and upgraded sanitation facilities for students.

The visit reached its most powerful moment as President-Elect Lunsford and District Governor Shahzad Sabir personally administered polio vaccinations to local children. The day concluded on a joyful note with a "Kick Polio Out of Pakistan" penalty shootout on the school's sports field — where the school's girls' football squad easily outmatched the visiting Rotary leadership, showcasing the strength, talent, and bright future of Lyari's youth.

MEMBERSHIP DEVELOPMENT

Membership Growth Begins with a Reason to Belong

Most clubs think membership growth starts with the invitation. It doesn't. It starts with what happens after someone says yes.

We chartered Rotary Club of Mirpurkhas Central in June 2021. Twenty members. Nothing special about that number. What mattered was what we did with the people who came after.

This year we stopped inviting people to "join Rotary." Nobody knows what that means. We invited them to fix a specific problem instead: a school without clean water, a hostel that needed rebuilding, a village that needed a plan. At our Club Installation, 21 people walked in and became members. Our total now stands at 50. In this district, that's fast growth. It didn't happen because we asked more people. It happened because we asked them for the right reason.

Recruiting is the easy part. Anyone can hand out a form.

The real test comes in the first month. A new member who isn't given something to do within a few weeks starts drifting. Nobody announces it. They just stop showing up. Give them a task before that happens. A project, a role on a committee, a seat at a district event. Show them My Rotary before they have to ask what it is.

We didn't do anything clever here. We just did it early, and we said thank you where people could hear it.

A club that keeps recruiting the same kind of person ends up looking exactly like it did five years ago. That's not stability. That's stagnation wearing a suit. Bring in the young professional who thinks Rotary is for retirees. Bring in the woman who's never been asked. Bring in someone from a profession your club has never touched.

None of this means the number doesn't matter. It does. Every new member is one more set of hands, one more network you didn't have last year, one possible club president a decade from now.

So here's the question worth asking this August, and only this one: who in your community should already be a Rotarian, and hasn't been asked?

Ask them. Don't sell them Rotary. Give them something to fix.

Clubs that only add members stay the same size they've always been. Clubs that build Rotarians grow into something they weren't before.
